

PLEASE, PLEASE do not allow the telemarketing law to be changed. As for my point of view, here is only one reason why I feel the way I do. I need to go to bed early, 9p.m. at the latest. I have had telemarketers calling as late as 9:30. I cannot turn my ringer off. If I want a certain service, product, etc. I will contact that company on my own. I'm tired of being interrupted when I have company, family over or am busy and need to answer the phone for something I am not interested in or don't want to contribute to.
